

逃げキッド®

Materials to create My Timeline

(A plan to get away from the dangers caused by typhoons and heavy rain)

It is vital to make My Timeline to get away from the dangers caused by typhoons and heavy rain.

My Timeline has been made

3 days before

A typhoon has occurred!

Look at My Timeline.

Prepare items to take with you!

My Timeline has not been made

A typhoon has occurred!

Is it coming close?

Raining heavily!

Look at My Timeline and check the typhoon information.

Check the river level.

The river level has been rising.

Evacuate!

ひなんしじ 避難指示 (Evacuation Instruction)

Rain and wind are getting stronger!

We don't know what to do!

We don't know where to evacuate.

Successfully evacuated!

What a relief!

Help!

The river has flooded.

☐ No ☐ Yes (Name(s): _____)

A-3 Check where to evacuate

Guidancebook p.6

Place to evacuate	How to evacuate	How long it takes to evacuate
The nearest "Evacuation Shelter" in the Flood Hazard Map.	<input type="checkbox"/> On foot <input type="checkbox"/> By car <input type="checkbox"/> By Others	<input type="checkbox"/> By bicycle <input type="checkbox"/> By train _____ min(ute)s
Your acquaintance's house, Japanese class, church, etc. where floodwater will not reach.	<input type="checkbox"/> On foot <input type="checkbox"/> By car <input type="checkbox"/> By Others	<input type="checkbox"/> By bicycle <input type="checkbox"/> By train _____ min(ute)s
A safe and sturdy building that is close to your house and floodwater will not reach.	<input type="checkbox"/> On foot <input type="checkbox"/> By car <input type="checkbox"/> Others	<input type="checkbox"/> By bicycle <input type="checkbox"/> By train _____ min(ute)s

2

[illegible]

3

Look for the HomeKit icon (the house with an 'i') on the screen before you tap 'Configure' to make sure you're configuring the right accessory.

Check the floodwater information.

Provide the necessary details.

4. Add the floodwater height to the upper reaches of the lake.

Check the river level.

Change to water-unsafe clothes as the water level rises.

Go into a safe place.

Managed to evacuate safely.

Warn your acquaintances of the danger.

Stick them in your home!

How to use the stickers below

- Write down the possible floodwater height in your home on the stickers.
- Put the stickers at the same height of the water level in your home.
- Repeat the same procedure along the river.
- When the water height reaches your river, it will be difficult to walk.

Floodwater may reach

 around this area

Floodwater may reach

 around this area

Check the possible floodwater height in your place and warn your acquaintances before floodwater rises.
